Supply Decarbonisation – Target 2030

Decarbonising our energy system is one of the biggest challenges of our time. Delivering the UK's climate goals will require action by industry, supportive energy policies from governments, and suitable and sufficient regulation, together driving an unprecedented programme of investment.

The UK offshore oil and gas industry was one of the first industrial sectors to commit to the Government's goal of achieving net zero emissions by 2050 in the UK and 2045 in Scotland. Since then, the basin has reduced its emissions by 20% since 2018 and assigned ambitious carbon and methane reduction targets through the North Sea Transition Deal.

Many of the low-hanging opportunities have been seized, but reaching our climate goals will only be achieved if we can collaborate, share ideas and expertise, and fully deliver the North Sea Transition Deal.

All of these issues and more will be covered in this new OEUK conference, comprising of presentations, exhibition, panel sessions, networking opportunities, a drinks reception, and OEUK's annual Emissions Report launch.

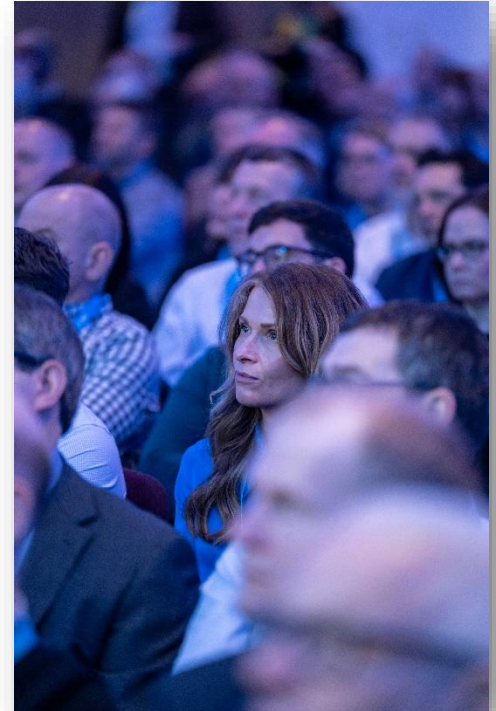

The event has been developed to appeal to a broad audience from across the UK and further afield

- **Operators** – leaders in senior management roles, environmental managers, emissions specialists
- **Supply Chain** – business development, project managers, environmental managers, emissions specialists
- **Energy Sector** – leaders and practitioners from the wind, hydrogen and CCUS sectors
- **Regulators** – both from the UK and around the globe
- **Early career professionals** – broaden your knowledge and connections in the sector
- **Academia** – researchers and post-graduates from engineering, legal, geological and science disciplines.
- **Students** – considering a career in the energy sector or continuing studies on the topic
- **Media** – expand your understanding of the sector

It is anticipated over 250 people will join the event on 12 October in Aberdeen

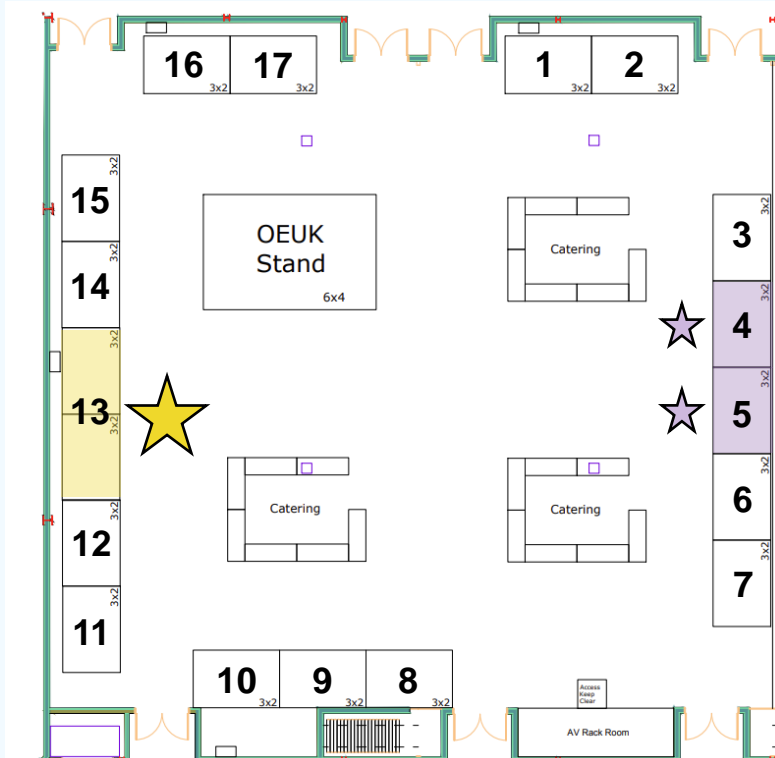

Available Exhibitor Packages

All packages will be sold on a first come, first served basis and are subject to VAT:

- **Shell Scheme Package – 3 x 2 m²**
 - OEUK Member: £1,800 + VAT
 - Non-member: £2,800 + VAT
- **Shell Scheme Package – 6 x 2 m²**
 - OEUK Member: £2,400 + VAT
 - Non-member: £3,800 + VAT
- For bespoke space only prices – please get in touch

EXHIBITION FLOOR PLAN ON NEXT PAGE

Principal Sponsor - SOLD

Supporting Sponsors (x2) - available

Stands available are on a first come, first served basis.

For bespoke space only prices – please get in touch.

Reserved Stands:

13, 15

Shell Scheme Package Includes:

DECARBONISATION CONFERENCE

- Exhibition stand of chosen size
- Name plate above stand
- Two spotlights
- One 500w socket
- One table
- Two chairs
- Catering provided
- Two full conference and exhibition passes
- Listing as an exhibitor on the dedicated event app
- Inclusion in 1 post on the OEUK social media pages, followed by over 100k industry professionals
- Logo included on exhibition focused marketing emails and on the conference website
- Personal section on the conference website including; logo, company info, links to website and social media handles

Should you wish to produce branded graphic panels for your stand, this can be arranged directly with P&J Live. Further details will be available in due course.
